

Distribution

asua is distributor of The Dow Chemical Company for more than 30 years.

Additives for PVC

Processing Aids:

Paraloid K 120 N
Paraloid K 435

Paraloid K 120 ND
Paraloid K 445

Paraloid K 125
Paraloid Surecel

Paraloid K 175

MBS Impact Modifiers:

Paraloid BTA 702 S
Paraloid BTA 780 S

Paraloid BTA 711

Paraloid BTA 736 S

Paraloid BTA 753

Acrylic Impact Modifiers:

Paraloid KM 361

Paraloid KM 342 B

Paraloid KM 370

Paraloid HIA 80

CPE Impact Modifiers:

Tyrin 6000

Tyrin 7000

EXL MODIFIERS:

Paraloid EXL

Sn Stabilisers:

Advastab TM 181 FS

Advastab TM 391

Advastab TM 40 ER

Lubricants / Waxes:

Advalube

Advawax

Additives for thermoset applications

Tyrin CM 3630 E®: (36% CI) widest latitude for applications and processing.

Tyrin CM 3551 E®: (36% CI) higher filler and plasticizer loading.

Tyrin BH 9000®: (40% CI) improves oil and fuel resistance.

Tyrin CM 0730®:(30% CI) gives excellent low temperature properties.

Additives for Polyolefins

ENGAGE™ polyolefin elastomers bridge the gap between rubber and plastic, inspiring new design possibilities. ENGAGE polymers are the materials of choice for a wide variety of applications. A unique combination of the flexibility and toughness of synthetic rubber with the processability of plastics.
